Summary

Senior Software Engineer specializing in building scalable, high-performance web and cross-platform mobile applications using React Native, Next.js, and Node.js. Proven experience delivering production-ready solutions across e-commerce, AI, telehealth, and SaaS platforms, with strong expertise in performance optimization, API integration, and serverless architectures on AWS. Experienced in leading frontend development, mentoring teams, and building applications with a focus on scalability, reliability, and user experience.

Professional Experience

Global Software Consulting, Senior Software Engineer 2025 – Present | Lahore, Pakistan

- Designed and developed scalable React Native applications, ensuring high performance and smooth user experience across iOS and Android
- Built responsive web applications using React.js and Next.js, integrating complex REST APIs for dynamic data handling
- Implemented monorepo architecture (TurboRepo) to streamline development across web, mobile, and backend systems
- Integrated secure payment solutions using Stripe, Apple Pay, and Google Pay, enabling seamless and reliable transactions
- Developed serverless backend workflows using AWS Lambda and API Gateway, improving system scalability and efficiency
- Optimized state management and data flow to enhance application responsiveness and reduce UI latency
- Collaborated with cross-functional teams in Agile environments to deliver features within defined timelines
- Mentored junior developers, conducted code reviews, and enforced clean architecture practices

Obenan, Senior Software Engineer 01/2023 – 03/2025 | Lahore, Pakistan

- Led frontend development for core products including Obenan Dashboard, Landing Platform, and OmniPulse
- Developed SEO-optimized, high-performance applications using Next.js (SSR/SSG)
- Built scalable UI architecture using React.js, Redux, and Tailwind CSS
- Integrated Strapi CMS for dynamic, multilingual content management
- Delivered responsive and accessible interfaces optimized for both mobile and desktop
- Collaborated with backend and product teams to implement AI-driven features

Global Software Consulting, Software Engineer 08/2019 – 2023 | Lahore

- Developed cross-platform mobile applications using React Native (CLI & Expo)
- Built modern web applications using React.js and Next.js
- Integrated REST APIs and handled complex data flows between frontend and backend
- Implemented navigation systems, state management, and reusable UI components
- Delivered production-ready applications deployed on App Store and Google Play Store

Education

BS Hons, Computer Science, University of Sargodha

05/2015 – 08/2019 | Sargodha, Pakistan

Technical Skills

Frontend: React.js, Next.js (SSR/SSG), Redux, Context API, Tailwind CSS

Mobile: React Native (CLI, Expo), Reanimated, React Navigation

Backend: Node.js, NestJS, Express.js, REST APIs, GraphQL

Cloud & DevOps: AWS Lambda, API Gateway, VPC, Serverless Architecture, CI/CD, GitHub Actions

Payments & Integrations: Stripe, Apple Pay, Google Pay, In-App Purchases, Push Notifications

Architecture: Monorepo (TurboRepo), Scalable Systems, API Design

AI Tools: Cursor, Windsurf, Claude Code, ChatGPT API

Deployment: App Store, Google Play Store, Vercel, AWS

Projects

My Mind Bestie — Cross-Platform Wellness SaaS

Tech: React Native, Next.js, NestJS, PostgreSQL, AWS, Stripe, Electron

- Built a full-stack SaaS platform across Web, Mobile, and Desktop, delivering a unified user experience
- Designed scalable monorepo architecture (TurboRepo) for multiple apps and shared code
- Developed serverless backend (NestJS + AWS Lambda) with modular features (auth, payments, content)
- Integrated Stripe subscriptions and payment workflows
- Built mobile app with audio/video streaming and push notifications
- Developed admin dashboard for managing users, content, and subscriptions

Obenan – AI-Powered Digital Marketing Platform,

Tech Stack: Next.js, Strapi CMS, TurboRepo, Tailwind CSS, Framer Motion, Heroicons, Axios, i18n

Obenan – AI-Powered Digital Marketing Platform

Tech: Next.js, Strapi CMS, TurboRepo, Tailwind CSS

- Led frontend architecture for a multi-product platform supporting business clients
- Built SEO-friendly, multilingual platform using Next.js
- Developed centralized dashboard for managing digital presence and insights
- Implemented reusable UI components and shared packages using monorepo structure

Etihad Town – Real Estate & Community Management App

Tech: React Native, Node.js, REST APIs

- Developed full-stack mobile application for property and community management
- Built CMS system for managing listings, announcements, and user data
- Implemented push notifications and real-time updates
- Led development team and coordinated delivery across modules

uDress – E-Commerce Mobile App for Fashion

Tech: React Native, Redux, REST APIs

- Developed a cross-platform mobile app for buying and selling fashion products
- Implemented advanced search, filtering, and real-time chat functionality
- Enhanced user experience using React Native Reanimated animations
- Integrated APIs for seamless product and user data handling

Certifications

- Meta React Native Specialization (Coursera)
- Backend Development with Node.js & Express (Coursera)
- Programming with JavaScript (Meta)
- Introduction to Mobile Development (Meta)
